

Quality Solution For All Growers

Electronic Weight Grader

From ***K W Automation***

- ▶ **Gentle** and speedy handling for all your fruit.
- ▶ **Choice** of large volume collection drums, shallow bins or hoppers.
- ▶ **Online** 24 hour technical support technical support
- ▶ **Durable** powder coated for extra protection.
- ▶ **Flexibility** to handle most fruit types.
- ▶ **Electronically** adjusted variable speed drive for smooth flow of fruit line.

KW Automation graders allow for extreme accuracy in quality of grading resulting in better appearance and positive enhancement of produce to wholesalers, retailers and consumers.

The fruit cup is suspended on 2 pins. As the cup "floats" across the weighing platform 100 separate simultaneous readings are carried out on each piece of fruit.

A simple stroke of the keyboard can select pre-programmed weight settings giving great flexibility and speed to gently handle most fruit types and sizes ranging from small plums to large mangoes.

KW Electronic Weight Graders have a capacity to handle up to 14,500 pieces of fruit per hour (1 Lane version) meet stringent standards and are designed to operate either separately or as part of the fully integrated KW processing line.

Extremely Accurate Grading Results
