

# Soil Mixers

From *K W Automation*

" Assures thorough mixing of materials and fertilisers. "

Our unique mixing spiral is designed to bring all materials to the centre of the machine and assures thorough mixing of all materials and fertilisers.

Four Spirals are fitted into the mixer bowl, two lefthand and two righthand.

The outer Spirals bring the soil to the centre and the inner Spirals bring the soil to the outside.

Once the mixer is half empty the inner spiral stops agitating and the outer spiral empties the entire contents.

**Optional Extra :**

For abrasive materials a 5mm liner can be placed inside the bowl for easy replacement, and the mixing spiral can be hard faced.

Unique Mixing Spiral

- ▶ **Able** to mix any kind of potting mix in 5 - 10 minutes.
- ▶ **Mixer Bowl** made from 3mm steel plate.
- ▶ **Overload** protection.
- ▶ **Thorough** mixing.
- ▶ **Centrally** mounted sliding mixer door controls soil flow out of mixer.
